

ZENIX SYSTEM 300

BENEFITS

- **Non-Isocyanate 2:1 Acrylic Formula** – Safer to use than traditional urethanes
- **High Performance Formula** – Highly resistant to chemicals, solvents, acids, and yellowing
- **Easy to Use** – Designed for novice sprayers – Virtually no learning curve
- **Superior Gloss** – Gloss ratings of up to 92+ are now possible in a non-isocyanate formula
- **Maximum Durability** – 4H pencil hardness is the new standard for non-isocyanate formulas
- **Self-Leveling Formula** – Virtually eliminates spraying defects like “Orange Peel”
- **2:1 Mix Ratio** – Easier mixing, higher coverage, and more cost effective than 4:1 systems
- **Super Fast Dry Times** – Minutes between coats; 16 hours cure time

NON-ISOCYANATE HIGH PERFORMANCE ACRYLIC TOPCOAT SYSTEM

Zenix System 300 is a new generation of ultra high-performance acrylic topcoat that **Does Not Contain Isocyanates**. Made with the latest technological resin advancements, it delivers the same performance and durability as a traditional urethane, in a next day use formula.

Designed for the professional refinishing industry, this high solids fast drying formula is perfect for refinishing bathtubs, ceramic tiles, laminates, and cabinets. Other substrates include: steel, fiberglass, aluminum, acrylic, porcelain, countertops, vinyl, wood, and cementitious surfaces.
